

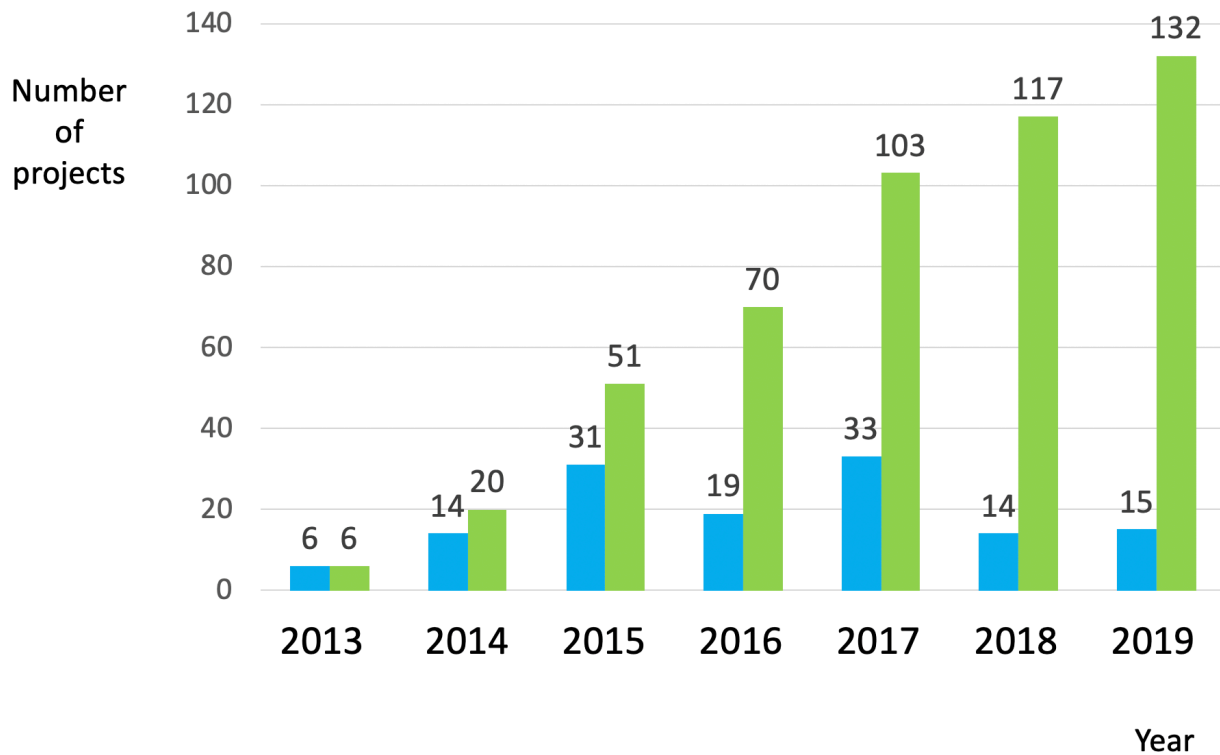

**FIGURE 1. Annual and cumulative numbers of projects with publicly-available data on the Systematic Review Data Repository (SRDR) Website since the year after SRDR’s inception in 2012 (i.e., 2013) to 2019**

Note:

- Blue bars = annual number of projects
- Green bars = cumulative number of projects
- Data for 2019 only includes January 1, 2019 to February 26, 2019. The spike in number of projects in 2019, although it includes data from only approximately 2 months, is because we recently reached out to leads of all existing projects in SRDR to encourage them to make their project data publicly available.
